

Focused on Vision Wellness

EyeMed's quality vision care program is important to every member of your family. Sadly, only 50% of Americans get regular eye exams despite the fact that most adults consider vision their most important sense. One in five people are at risk for vision loss and many of the problems could have been addressed through proactive care.

Regular eye exams not only help correct vision problems; comprehensive eye exams can also reveal the warning signs of more serious undiagnosed health problems such as hypertension, cardiovascular disease and diabetes. No matter what the age, eye exams are important to health.

Unlimited Savings

Your EyeMed discount can be used as often as you like throughout the year and allows you to save on nearly all your vision care purchases.
